Event Description:

This group will enjoy the process of making their very own hiking companion that will last a lifetime. Every stick will be individually cut with holes drilled by the leader. Participants will safely sand their sticks using different grades of sandpaper before using stains and shiny coatings to waterproof their sticks. We will then add stickers, glitter, leather handle straps, rubber stoppers, compasses, and jewelry to really make these pieces of art shine! Our goals during this confidence-building workshop are to bond with peers, learn new coping strategies, and regulate emotions in a variety of ways; all while making this one-of-a-kind beautiful piece of heirloom art that can be passed down for generations.
